

**FINCANTIERI: GO-AHEAD OF “INSIEME IN SICUREZZA” FOR THE GROUP’S SUPPLIERS*****The project further promotes the safety culture***

**Trieste, January 25, 2018** – Fincantieri started the year 2018 with a particularly important project with regards to safety. The welfare of all the workers, together with the care and improvement of every working environment, have always been strategic factors for the development of the company, as part of a vision that considers safety a fundamental value and an essential objective.

On this basis, the project “Insieme in sicurezza” came into life, consisting in a videotraining targeted at the Group’s Italian yards’ workers and mainly to all the employees of the external companies, which amount to around 30,000 people, women and men of different nationalities and ethnic groups.

Starting in January, the video was shown to all new workers first entering the various yards, and set a necessary condition for the start of their work. The course, lasting about 2 hours and 30 minutes, takes place in areas used and managed for this purpose.

The topics addressed range from a presentation of the yards to the explanation of the legislation in force, from the analysis of risks deriving from specific operations of the shipbuilding industry to the different protection and prevention systems.

“Insieme in sicurezza” is a highly tailored product available in 10 versions, fine-tuned for each of the Group’s production unit of the group, which has then been translated into the 10 most common languages in the yards, with a final total number of 100 editions.

This initiative confirms the company's constant research and commitment to support, within its production system, the best integration and interaction among all the subjects involved, fully complying with the rules protecting safety at work and of the environment.

A short demo of the course in [English](#) can be seen at the following link.

*Fincantieri is one of the world's largest shipbuilding groups and number one by diversification and innovation. It is leader in cruise ship design and construction and a reference player in all high-tech shipbuilding industry's sectors, from naval to offshore vessels, from high-complexity special vessels and ferries to mega-yachts, ship repairs and conversions, systems and components production and after-sales services.*

*Headquartered in Trieste (Italy), the Group has built more than 7,000 vessels in over 230 years of maritime history. With more than 19,400 employees, of whom more than 8,200 in Italy, 20 shipyards in 4 continents, today Fincantieri is the leading Western shipbuilder. It has among its clients the major cruise operators, the Italian and the U.S. Navy, in addition to several foreign navies, and it is partner of some of the main European defense companies within supranational programmes.*
