

Fincantieri signs with Intesa Sanpaolo a 500 million euros revolving construction loan “sustainability linked”

The financing is linked to sustainability goals

Trieste - Milan, July 12, 2022 – Fincantieri has signed with bank Intesa Sanpaolo (IMI Corporate & Investment Banking Division) a **“sustainability linked” revolving credit facility** for a maximum amount of 500 million euros.

The three-year financing is aimed at covering the financial requirements of the construction of cruise ships. It is defined “sustainability-linked” because it is linked to the achievement of two specific performance indicators (*Key Performance Indicator*, “KPI”): the **sustainability score level**, assigned every year by S&P Global with the Corporate Sustainability Assessment (CSA) questionnaire, and the **energy efficiency of the cruise ships delivered every year (EEDI Index)**.
