

**“VIKING SUN” DELIVERED IN ANCONA**

**Trieste, September 25, 2017** – “Viking Sun”, the fourth of eight cruise ships Viking Ocean Cruises has ordered from Fincantieri, has been delivered today at the shipyard in Ancona.

“Viking Sun”, as its sister ships, is placed in the small cruise ship segment. In fact, with a gross tonnage of about 47,800 tons, it has 465 cabins with accommodation for 930 passengers, with a total capacity of over 1,400 people, including the crew.

The ship has been designed by experienced naval architects and engineers, including an interior design team of London-based SMC Design, and Los Angeles-based Rottet Studios, who transferred on “Viking Sun” a modern design of Scandinavian inspiration, featuring sophisticated elegance but functional, at the mean time. In addition to the all-veranda staterooms, the ship also has spacious suites with sweeping views, two pools, of which one Infinity Pool off the stern, and a Spa designed according to the wellness philosophy of the Scandinavian tradition, with a sauna and a snow grotto.

The Viking Ocean Cruises units are all built according to the latest navigation regulations and equipped with the most modern safety systems, including the “Safe return to port”. Furthermore, they feature the most advanced technologies for energy saving and for meeting the strictest environmental regulations with energy-efficient engines and an exhaust gas cleaning system.

The first of the series, “Viking Star”, has been built at the shipyard in Marghera and delivered in 2015, the second and the third, “Viking Sea” and “Viking Sky”, took the sea from the shipyard in Ancona in 2016 and 2017. The last four units will be delivered respectively in 2018, 2019, 2021 and 2022.

Fincantieri has built 79 cruise ships from 1990 to today (56 from 2002), while other 32 are currently being designed or built in the Group’s yards.

\* \* \*

*Fincantieri is one of the world’s largest shipbuilding groups and number one by diversification and innovation. It is leader in cruise ship design and construction and a reference player in all high-tech shipbuilding industry’s sectors, from naval to offshore vessels, from high-complexity special vessels and ferries to mega-yachts, ship repairs and conversions, systems and components production and after-sales services.*

*Headquartered in Trieste (Italy), the Group has built more than 7,000 vessels in over 230 years of maritime history. With more than 19,400 employees, of whom more than 8,200 in Italy, 20 shipyards in 4 continents, today Fincantieri is the leading Western shipbuilder. It has among its clients the major cruise operators, the Italian and the U.S. Navy, in addition*

to several foreign navies, and it is partner of some of the main European defense companies within supranational programmes.
