

Al Zubarah Class

SINTESI/HUB M-05-22

Al Zubarah Class Corvette

 Al Zubarah Class Corvette, as result of the optimization of vessel size, high performance, transport and support capabilities, can play different roles such as escort, support, relief, interdiction and patrol operations.

These ships are highly handy, have excellent nautical qualities, seaworthiness and long range. They are able to operate in open seas missions and to manage protracted helo operations. The Corvettes can accommodate a powerful Combat System, which makes their operational capabilities comparable to those of medium-size frigates.

_ main characteristics

Length overall	
Length between perpendiculars	
Beam	
Depth	8.6 m
Full Load Displacement	
Range (at cruising speed)	
Endurance	21 days
Crew	
Propulsion system	
Generating sets	4 x DGS
Flight deck	for NH90
Hangar	for NH90
Maximum continuous speed	28 knots
Cruising speed	

_ combat system
