Saettia MK3 Class

Inshore
Patrol Vessels

_ main characteristics

— These ships enable coast guards to upgrade their institutional activities of patrolling and safeguarding national waters. High operational flexibility enables operations to be carried out in many different roles such as patrolling blue waters, anti pollution operations, assisting other craft in difficulty, search and rescue operations. Such vessels have a length of 50÷55 metres and can reach a maximum speed ranging from 23 up to above 30 knots as a function of the chosen propulsion system.

Length overall.....	53.40 m
Length between perpendiculars.....	47.20 m
Moulded breadth.....	8.10 m
Depth.....	5.40 m
Full load displacement.....	391 t
Corresponding moulded draught.....	2.10 m
Sea trial displacement.....	360 t
Corresponding moulded draught.....	2.00 m
Diesel engines.....	2 (I.F. VL1716T2 MSD - max 2,360 kW each)
Diesel generators.....	3 DD/GG (3x208 kW)
Propellers.....	2 controllable pitch
Rudders.....	2
Bow thruster.....	1
Max speed.....	23 kn
Range at 16 kn.....	2,100 nm
Service craft.....	2 RHIB
Crew.....	23 + 2 people
Gun.....	1 x 20 ÷ 30 mm
Surveillance system.....	Electro-Optical System
Radar-navigation and anti-collision.....	1 band 1S band
Communication system.....	GMDSS

HELO CAPABILITIES

Flight deck for AB212
