THE POLICY

SAFETY

- The Fincantieri Group puts safety first and foremost when adopting its strategies.
- Safety is essential not only for the present but also for the future.
- It is about setting an example to be followed by management and everyone else within the company.
- It enables the company to grow and increase its quality and efficiency.
- It is about training and information: because the more you know, the safer you are.
- It is about cultural change.

Only in this way can we ensure “Zero Accidents”, which is our prerogative whatever we do.

GIUSEPPE BONO
Managing Director of Fincantieri
